To the Eigoka Graduate-Teachers:

It is with great Joy and satisfaction that I see our plans for more cooperation and continuing education being developed by the graduates in union with the professors of the English Language Department. We are starting on a small scale, but we hope to develop our activities as time passes. I hope that as many of you as possible will attend the first meeting of teachers in September. Please remember that we, here at the university, want to hear your ideas. In that way we know what will be desired and profitable on your side. **We can plan accordingly. I am sorry I will not be present for the 1st meeting in September, since I will still be in the United States, but I look forward to seeing all of you in October.**

Sincerely yours,

*John J. M... 39*

**To Our Dear Friends and Colleagues in ASTE and the  
Sophia Seminar:**

*Bob and I remember with much delight and love the deeply moving experience we had on our first trip to Japan to participate in the ASTE Workshop and the Sophia Seminar. We have always prided ourselves on our southern hospitality and yet, we found that Japanese hospitality is so very special because of the bonds that ties us together.*

*Our time together in Kyoto and also in Karuizawa was very special. We remember the attentiveness of the teachers, their small recorders taking down each word, their sharing places to visit and sites to see, Robert's first Rotary meeting overseas, and most of all the beautiful, beautiful questions that each person asked. The reflections on the materials, how they planned to use the ideas in their own classrooms, their students and special situations...in many ways similar to what teachers in the U.S. were experiencing and yet different because of culture.*

*While we had worried about our ability to communicate, we found that there was none. There were evenings in discussion and activities and of course, the "talent" show at the end. Dr. Bernie Chosed, Dr. Bill Acton, and Professor Yoshida made the event even more spectacular.*

*After we left Japan that year, we knew we would come back ... and we did many times more, at least 11 before I retired. While all have left us with warm memories, our times at our seminar and with ASTE were even more special!*

*Our deepest blessings and thank you's for all you did to make us welcome.*

*We would love to hear from you. My e-mail is [ahparsons@charter.net](mailto:ahparsons@charter.net).*

*Our blessings always,*

*Adelaide and Robert Parsons*
